Pastening This device obvictes all trouble with axle-nuts turning off or tightening so as to factor the wheel from turning. Save one half the work setting up Carriages. You have only to push the wheel on the axle, when it automatically fastens theelf, and is removed by lifting the spring bolt and drawing the wheel from the axle. A great convenience in removing the wheel for oiling when in use, as no tools are required. It has stood the test of use upon thousands of Carriages with perfect success, We put steel wheels on all Carriages wishout extra charge. Catalogue mailed on application.
